Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest a freestanding rod-shaped, segmented particle with the claimed dimensions wherein the particle contains information regarding an associated material, as recited in instant claims 1 and 88, or wherein a segment comprises a paramagnetic material compound, as recited in claim 15, or wherein the particle is, or is part of, an electronic device, as recited in claim 97.

US application 09/677,198 has been abandoned, therefore the provisional rejected on the ground of nonstatutory obviousness-type double patenting is hereby withdrawn. It is noted that the claims of co-owned US application 10/840,604 recite segmented, rod-shaped particles with dimensions similar to those of the instant claims; however, the claims of '604 do not recite limitations regarding associated materials, a paramagnetic compound, nor an electronic device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marjorie A. Moran whose telephone number is (571) 272-0720. The examiner can normally be reached on Monday-Friday; 6 am-2:30 pm EST.
